

Looking for a Quality Integrator? Look for the Industry Standard

Two CSIA Standard-Bearers

“National Instruments encourages the Select Partners in its NI Alliance Program to join CSIA, implement the CSIA Best Practices and Benchmarks Program, pass the CSIA audit... and become Registered Members”

“Recognizing the high quality, financial, and project management standards required by CSIA registration, Rockwell Automation recommends that its Solution Providers become CSIA registered”

Learn what the CSIA REGISTERED symbol can mean for your next integration project or your system integration business. Call Norm O’Leary at CSIA today or visit our website.
